

LIPOS GmbH

Oil mill for specialities

The Lipos GmbH is a subsidiary of Henry Lamotte Oils GmbH. For more than 90 years, Henry Lamotte Oils GmbH has been a leading supplier and producer of oils, waxes and seed flour as well as colours and flavourings. Both food retailers and the food industry as well as the cosmetics, pharmaceuticals and animal feed industries put their trust in the excellent quality of our products and services.

At the Bremen location specialty oils are gently extracted.

- All oils are **gently pressed** using the special **Lipos® cold pressing procedure**
- Virgin oils are **processed without additives**
- **Mechanical two-stage filtration**
- We **guarantee the product's unique freshness**
- We **fill in all types of containers and sizes** – from bottles to tank trucks
- Oilseeds come partially from **own contract farming** and from **clearly defined origins**
- Production of oils from seeds with allergen potential in a **controlled environment**
- We **store** our oilseeds and press cakes **in silos** only
- The gentle handling of the oilseeds results in **high quality presscakes and flour**
- **In-house seed cleaning**

**Filled with
passion**
since 1925

Seed control in the country of origin

Business premises located in Bremen

Concepts for transparency and traceability

- **Auditing** of the seed suppliers
- Through close cooperation with the growers, greater influence on
 - **quality aspects**
 - **varieties in the oil plants**
 - **growing methods**
 - **origins of the seeds**
- Establishment of sustainable supply chain in common dialogue with our customers and the agricultural associations on the basis of the BSCI standard
- Joint elaboration of concepts for **regionalisation** and **contract growing**

Rising quality demands – increasing demand for market transparency:

- **Security of supply**
- **Definition of origin:** Seeds from clearly defined origins, in some case with our own contract growing
- Worldwide procurement – worldwide sales
- **Direct contact to the growers**
- **Specified seed material**
- **Isolation of allergens**
- **Extensive certifications**
